Dr. George C. Nichols died last night at Mrs. Wilson's rooming house of tuberculosis.

The doctor came here first about six years ago in search of health and was much improved and took up the practice of his profession at the Supai Indian Reservation in Cataract Canon.

He came back here about three years ago and went out with a camping outfit and travelled over a good part of this country with burros, and was much improved. About two years ago he went back to California and entered into general practice, which he kept up until last April, when he had an operation performed on his throat and was confined in a hospital until about two months ago, when he came back here with his camping outfit and felt certain that our climate would again restore his health.

He was a very bright physician and a splendid man. The remains will be shipped to Minneapolis, Minn., for burial in the family lot.

Bonds build ships. Buy Liberty Bonds.

A New York woman who has been doing Red Cross relief work among the refugees in France, volunteered in caring for wounded soldiers coming in from the battlefield. While she was working a well-known voice shouted "Mother!" She knew her son had enlisted, but did not know before this that he was at the front. After attending to him and getting permission to visit him at the hospital, she went back to the station to cheer, as she said, he boys who had no mothers to welcome them.

When Victor Hugo wrote his famous "Les Miserables" he pictured much of the action in the Rue du Chemin Vert, and lived at one end of the street while writing to get "atmosphere." An American Red Cross warehouse is now on the site of that residence. At the other end of the street was the convent in which Jean Valjean took refuge.

Liberty Bond or Liberty bound, which will you have it?
